Subject: Installation of Ride-On TPS Tire Sealants as an OEM Option

Dear Mark,

Please use this letter to inform your customers and Distributors that the Fontaine Modification Company offers Ride-On Tire Protection System tire sealants as an option for all Class 8 trucks built at the Volvo/Mack New River Valley plant. We have been working with Inovex for the past several years installing Ride-On TPS into numerous applications for our customers.

Fontaine is best known for our modifications of medium and heavy-duty chassis and cabs. We offer a broad spectrum of core products and services directed toward making the truck meet the needs of your specific application. Our services range from pre delivery and customer identification installations to highly engineered modifications including all-wheel drive, extended cabs, dual steering, right hand drive, and more.

To request this option please have the purchasing truck dealer contact:

Terry Ratcliffe

540-674-3313

Fontaine Modification has Mod centers that service Autocar, Freightliner, Peterbilt, International, Mack, Volvo as well as various import brands.

We look forward to working with you and your customers. Please feel to call me if you have any further questions.

Sincerely,

Paul Kokalis
VP/General Manager
